

Roll Stacker6

The Roll-Stacker is an innovative packaging system designed with a living-hinge that protects rolls of paper, plastic film, underlayment, foil, and other cylindrical products from damage. It reduces packing time and shipping weight, is easy to load, fits any roll width, and minimizes product damage.

Benefits:

- ☐ Multiple use Roll Stacker
- ☐ Durable and Long Lasting
- ☐ Recycled HDPE material
- ☐ Moisture Resistant
- ☐ Living-Hinge Construction
- ☐ Standard Color Black
- ☐ Heavy Duty
- ☐ Stackable
